Team Name - Group 5

Sprint Name - Sprint 2

Answer the first three questions before moving on to your action items. There should be at least one item per the first three questions with a minimum of four items total, so at least one question will have more than one answer. In addition to an answer, list which team member contributed that answer. Once complete, move on to your action items, which you should write as a team. Come up with at least two action items.

What went well?

We got the file structure for it done, and we have an idea of where to go with the project.

What could have gone better?

We still have a long way to go towards completion, but were on the right track.

What did we learn?

I learned that flask isn't too bad.

What are our action items?

Getting flask sqlalchemy to work.
